* number of jobs posted in Q1 2015, excluding duplicates in the same site, internships, volunteer work, student jobs and franchises

Method & Source

The top 100 is created based on numbers from Jobfeed.nl. Jobfeed collects all jobs on the Dutch web and makes them searchable. Jobfeed collects jobs based on an automated spider process. In some cases manual modifications have been made (in case of spider irregularities). If your company is not represented correctly, you can contact Textkernel: info@textkernel.nl

Jobfeed is a product of Textkernel BV, technology supplier of multilingual cv parsing and semantic search and match software (textkernel.com)
