

# The online job market in Q2 2016

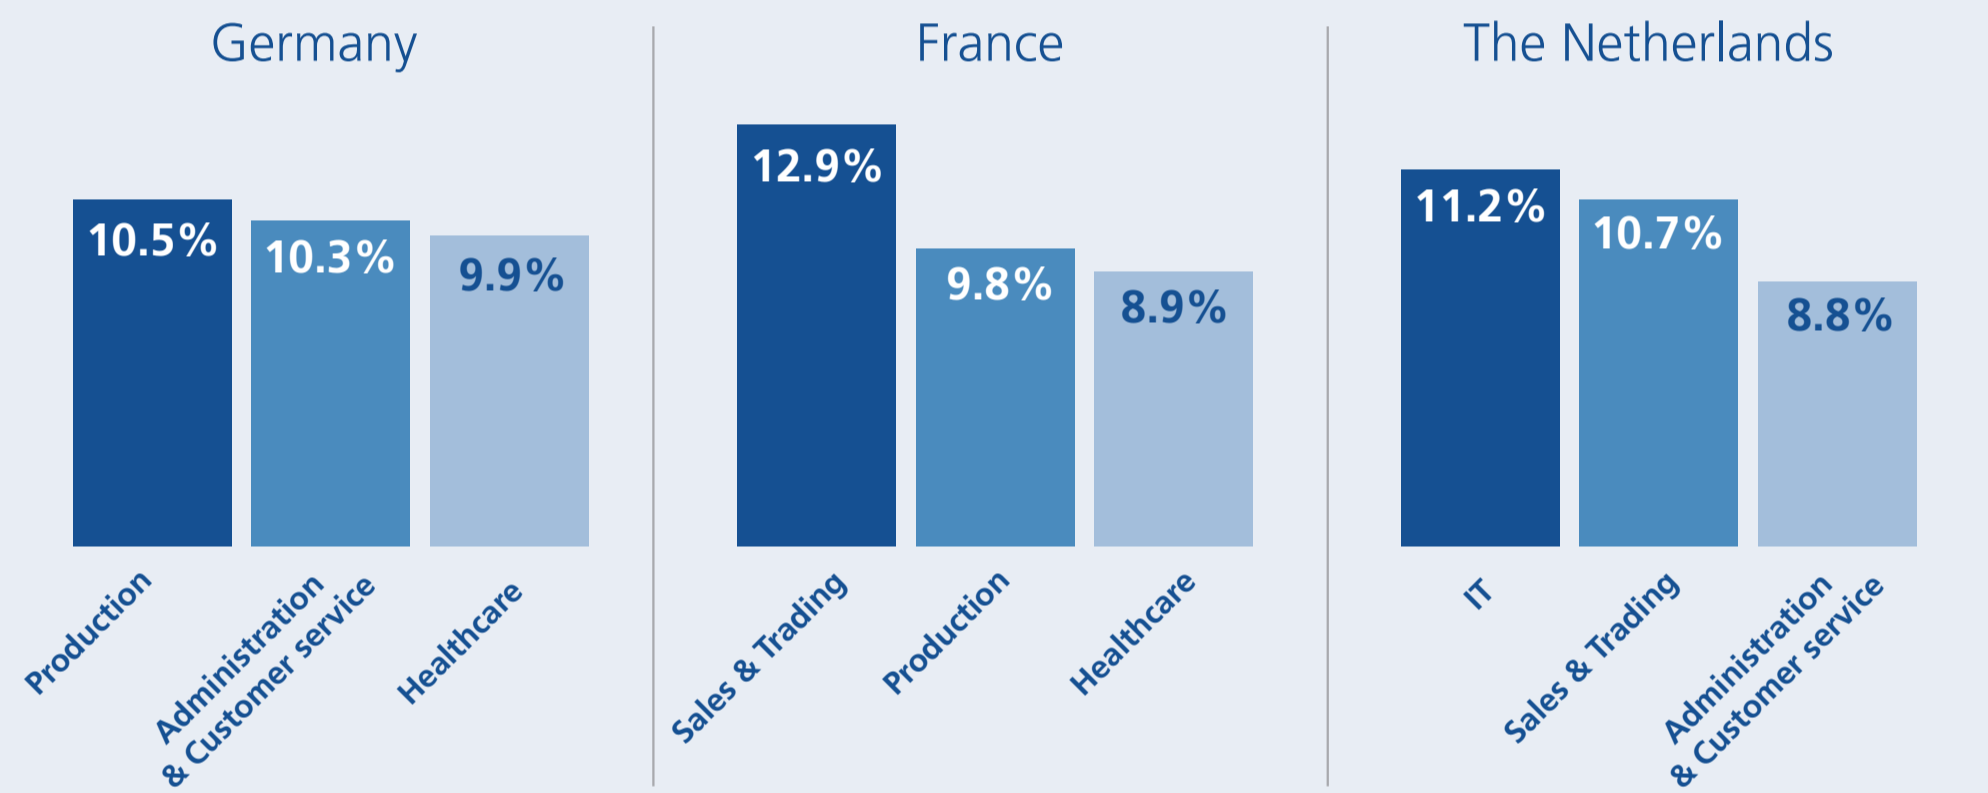

## Germany • France • The Netherlands

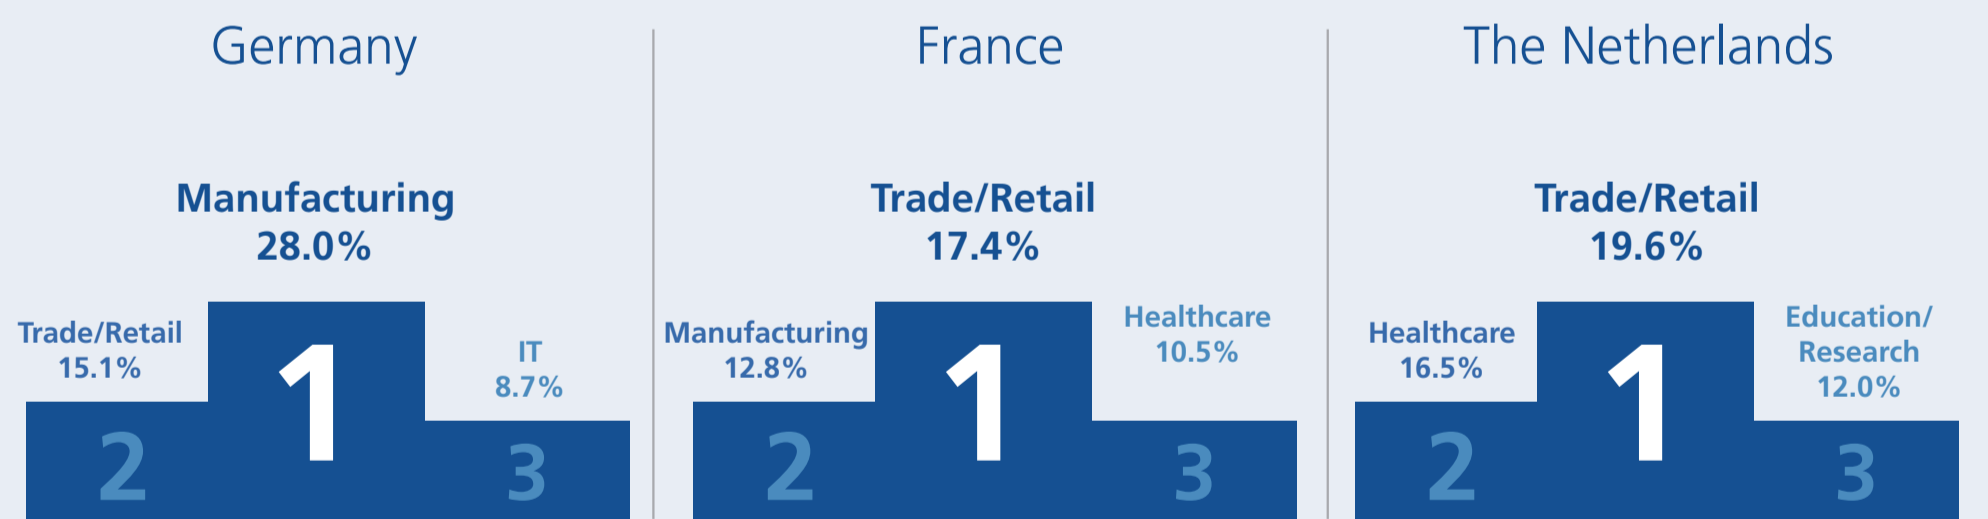

### Regions with most jobs published

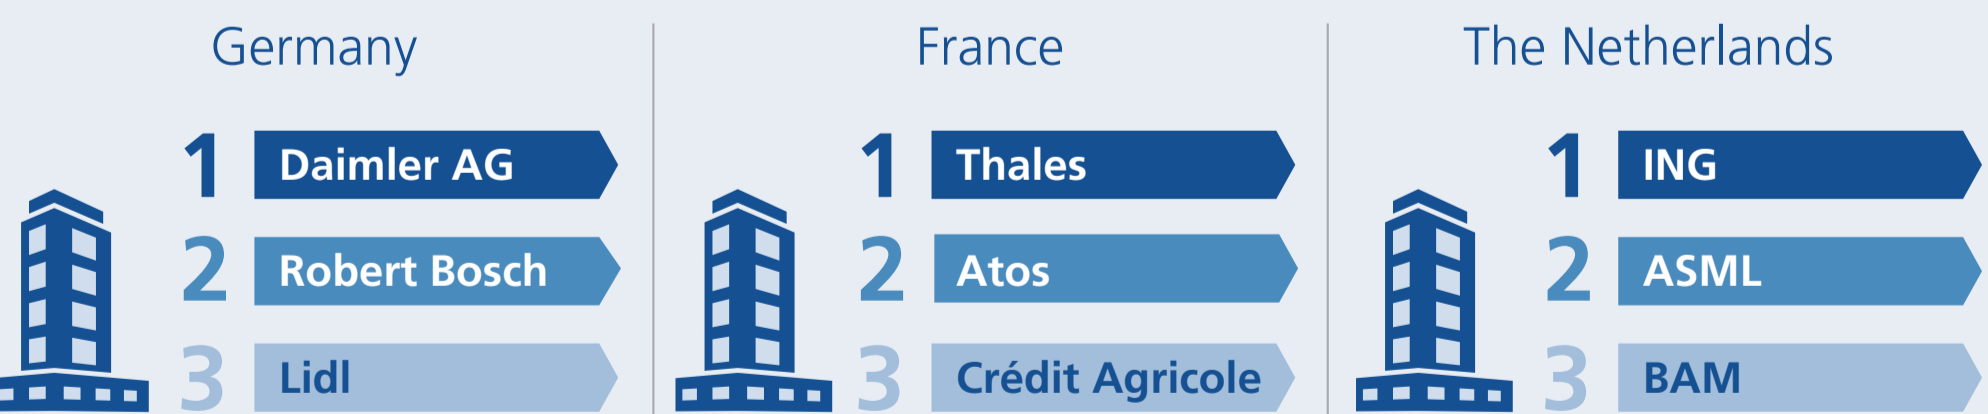

### Top 3 job categories based on market share in Q2 2016

### Top 3 sectors based on market share in Q2 2016

### Top companies in Q2 2016

#### Source

Numbers come from Jobfeed, Textkernel's searchable job database for lead generation, competitive insight and labour analysis. For this analysis, more than 3.6 million German jobs, 5 million French jobs and 2.5 million Dutch jobs posted between 1 April 2016 and 30 June 2016 have been analysed, categorised and de-duplicated. The resulting list of unique jobs, excluding internships, summer/temp jobs, volunteer work, freelance jobs and franchises, is the source on which these analyses have been performed.

#### Free test account

Jobfeed offers a current and historic overview of online jobs in Germany, France and the Netherlands as well as Austria, Belgium and the UK. Jobfeed proves itself to be a valuable source of information and a unique analytical and acquisition tool for recruitment and staffing agencies, job boards, outplacement and research organisations.
