Numbers come from Jobfeed, Textkernel's searchable job database for lead generation, competitive insights and labour market analysis. For this analysis more than 11,6 million online vacancy postings, posted between the 01 July 2017 and 30 September 2017 have been analysed, categorised and de-duplicated. The resulting list of unique vacancies, excluding franchise, internships/postgraduate positions, voluntary work, freelance jobs and apprenticeships, is the source from which these analyses have been performed.
